

Protractor Coding test

1. Navigate to Broadband section under System from the side pane

2. Fill the form details

The screenshot shows the 'Broadband Configuration' form. The 'System Name *' field is filled with 'Protractor_Test'. The 'Broadband sys id *' field is filled with '540'. The 'System Description' field is empty. The 'System Info Details' section has 'Fqdn *' filled with 'www.demo.com' and 'Country code *' filled with '56'. Below this, the 'LMR Subscriber Capabilities' section shows three checkboxes: 'Location to POC' (unchecked), 'Presence to POC' (checked), and 'Affiliation to POC' (unchecked). A 'CREATE' button is in the top right corner.

Package Details

Base Package +
